CARE Teak furniture can be left untreated, which will cause the wood to age gracefully and naturally to a silvery gray. When treated, teak will maintain its golden-brown hue and smooth finish. Unfinished teak furniture can be washed with warm water to remove dust or dirt. For a more thorough cleaning, a strong detergent and scouring pad may also be used. Finished teak requires occasional washing with warm, soapy water. We recommend applying our Teak Cleaner and Protectant, which blocks ultraviolet rays and protects the wood from mildew growth. Note that application of the cleaner will turn the wood a beautiful golden-brown color. We recommend using once or twice a season depending on weather conditions to maintain the wood's golden-brown hue. To prolong life, store and cover in cooler months when not in use.

DELIVERY Furniture will be unpacked, inspected and placed wherever you like. All packing material will be removed. (Certain small items, such as cushions or side tables that do not require assembly, will be delivered to your doorstep if they are the only items in the order.) Furniture and stocked cushions will be delivered to your home within 1-2 weeks in most metropolitan areas. 3-4 weeks for Canada.
