Lambeth Hexagonal Knob Installation Instructions

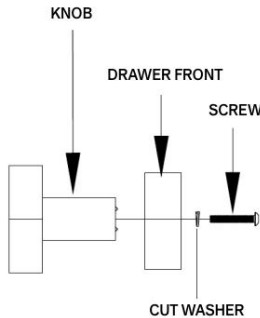

This knob includes hardware that is designed to mount securely to drawer fronts or cabinet doors that have a thickness range between ½ inch and 1¼ inches. If your drawer front or door is thicker or thinner than this range, please obtain the appropriate size screw from your local hardware store.

PARTS INCLUDED

- 1 pc Knob
- 1 pc 8-32, 1" Truss Head Machine Screw with Washer

MOUNTING INSTRUCTIONS

1. Carefully determine a desired knob location and use a 3/16"-diameter drill bit and the appropriate drill to make the hole through the drawer/door front.
2. Insert the appropriate length screw from the inside with the washer against the back of the drawer front or door.
3. Attach the knob onto the protruding threads of the screw and rotate clockwise until snug. Use a screwdriver to tighten the screw while gently holding the knob.

CARE INSTRUCTIONS

Wipe with a soft, dry cloth. To protect the finish, do not use household cleaners or abrasives.
