DUTCH CERAMIC VESSEL TABLE LAMP

IMPORTANT SAFETY INSTRUCTIONS

INSTALLATION BY A LICENSED ELECTRICIAN IS STRONGLY RECOMMENDED.

This fixture has been rated for up to one (1) 100-Watt maximum Type A standard incandescent light bulb (not included). To avoid the risk of fire, do not exceed the recommended wattage.

WARNINGS

All wires are connected. When unpacking, be careful not to pull wires, as a bad connection may result. Do not connect electricity until your fixture is fully assembled. To reduce the risk of fire, electrical shock, or personal injury, always turn off fixture and allow it to cool prior to replacing the light bulb. Do not touch or look directly at the bulb when fixture is illuminated. Keep flammable materials away from lit bulb.

SPECIFIC LAMPSHADES CAN ONLY BE USED WITH THIS LUMINAIRE FOR SAFETY REASONS.

The lampshade needs to be compliant with all of the below requirements:

- The lampshade needs to be a cone shape with circular openings on both sides, meaning top and bottom.
- The top opening needs to be at a minimum 10 inches (254 mm) in diameter.
- The bottom opening needs to be at a minimum 24 inches (610 mm) in diameter.
- The lamp shade needs to be equipped with the UNO fitter, and the distance from the fitter's mounting ring to the bottom of the lampshade should not exceed 2 ¾ inches (70 mm).

THIS IS NOT A TOY AND THE PRODUCT HAS NO PLAY VALUE.**ASSEMBLY INSTRUCTIONS**

1. Carefully unpack the contents.
2. Put the Lamp Body (E) in the desired location.
3. Remove Socket Ring (C) from the Socket (D).
4. Place Shade (B) (sold separately) over Socket (D).
5. Secure Socket Ring (C) to the Socket (D).
6. Insert the Bulb (A) (sold separately) into the Socket (D).
7. Plug into proper electrical outlet and test fixture.
8. Assembly is complete.

CARE INSTRUCTIONS

To clean, use a soft, dry cloth only. Do not use any chemical or abrasive cleaners.
