1. Carefully remove all parts from the box and remove all plastic coverings.
2. Determine the desired hanging length of the pendant. Attach the extension rods (C) (D) (E) according to the height needed.

4. Attach the mounting plate (A) to the ceiling and secure it with mounting screws and a suitable fastener from your local hardware store.
5. Attach nipple (G) to mounting plate (A).
6. Hook the carabiner (F) onto the connecting rods (C) (D) (E) and the canopy loop (B).

8. Connect the ground wire from the fixture to the ground wire (usually bare) from your ceiling box using a wire nut. If your home does not have a ground wire, attach the ground wire from the fixture to the green ground screw inside the outlet box. IT IS IMPERATIVE THAT THE OUTLET BOX IN YOUR HOME IS PROPERLY GROUNDED.
9. Connect the NEUTRAL wire from your pendant with the neutral wire (usually white) from your ceiling box using a wire nut.
10. Connect the HOT wire from the fixture to the hot (usually black) wire from your outlet box using a wire nut. DO NOT REVERSE HOT AND NEUTRAL CONNECTIONS OR SAFETY WILL BE COMPROMISED.
11. Carefully insert the wire connection into the ceiling outlet box.

Determine drop measurement (ceiling to bottom of fixture) and adjust height by adding/removing extension rods (C) (D) (E).

ATTENTION: ADJUSTING THE HANG HEIGHT

Any adjustments or alterations to the fixture, cord, or overall hang height that differ from those detailed on RH.com will void the Laboratory Listing and Approvals (UL, ETL, CSA, etc.). If the listing is voided, this means the product may no longer be safe for use as modified. RH does not recommend modifying the product.
