FEATURES

Inspired by the treillage latticework of the Louis XVI period, popular in gardens and garden-inspired rooms, our neoclassical chest features inlaid bands of diagonal laser-cut metalwork. The rusted patina of the metal plays warm counterpoint to silvery weathered pine, with each hand-built piece set on turned "toupie" legs and fitted with aluminum rosette handles.

- Built from distressed solid pine, inlaid by hand with oxidized metal
- Latticework extends across face and sides of chests
- Metal strapping binds the top and bottom of each dresser
- Dovetailed drawers have smooth wood glides

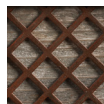

- Finished on top, front and sides in a soft, weathered grey
- Lathe-turned legs
- Variations in the wood and metal work are to be expected and celebrated. Each item is unique, and no two are exactly alike; cracks, nicks and imperfections will be present

CARE

Wipe with a soft, dry cloth. Avoid direct sunlight and heat to protect the wood finish.

SWATCHES

Wood swatches are available for purchase online or by calling 800.816.0901.
