### FEATURES

In 1958, Danish architect Arne Jacobsen designed a chair with proportions and curves that invite and embrace. His Egg chair became an instant icon. To celebrate Jacobsen's unbridled creativity, we offer our reproduction in sumptuous leather, leather with hide, or leather with polished aluminum. Regardless of combination, each chair is spectacularly one-of-a-kind, with proportions that never fail to please.

- Hand-distressed leather for softness and vintage appeal
- Hair-on-Hide chairs and ottomans feature natural, undyed hides; subtle variations in shading, hair length and texture make each piece unique
- Copenhagen Spitfire Chair has a leather front and a sleek aluminum-clad back accented with steel screws
- Swivels 360 degrees, with a slight tilt backwards
- Brushed aluminum base

### FABRIC CARE

Dust or vacuum regularly to help keep fabric looking new. Dab spills immediately with a soft, white cloth dampened with distilled water. Do not use tap water or detergents to clean. Professional in-home upholstery cleaning is recommended. Avoid direct sunlight to protect the fabric.

### LEATHER CARE

Aniline-dyed leather will lighten and soften with both use and time and develop a rich, burnished patina. Avoid direct sunlight and heat to prevent premature fading. Dab spills immediately with a soft, clean cloth. Do not use polishes, preservers, or leather soaps to clean. Light scratches may be rubbed out by the natural heat of a finger.

### HAIR-ON-HIDE CARE

Spot clean by hand; no bleach; air dry. Using a soft damp (not wet) cloth, mild soap and warm water, gently wipe in the direction of the hair. Pat dry. When fully dry, brush lightly in direction of the nap. Do not soak the hide or get it too wet. Vacuum in the direction of the hide hair.
