📍 Unlimited Furniture Delivery at a low flat rate based on delivery area. See a store associate or our website for details.

Fire tables are delivered in 1-2 weeks, and coordinating accessories are delivered in 3-7 business days, in most US metropolitan areas. See our website for delivery to Canada, pricing and additional views. Catalog and Web only.

FEATURES

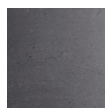

Our Modernist-inspired hearths offer streamlined design and accommodating warmth on chilly nights. Crafted of lightweight, heat-resistant fibercast concrete.

- Made from heat-resistant fibercast concrete in weathered slate or sand finish
- Tinted fibercast concrete is durable and weather-resistant
- Like natural stone, will develop a patina when left outdoors; finish varies, and no two are exactly alike
- Includes decorative lava rock
- Features battery-operated ignition (AAA battery included)
- Recessed glides allow for proper leveling of the table
- Adjustable flame control
- 10' connector hose included
- Rated at 50,000 BTUs
- Available in natural gas or propane fuel options
- Natural gas table attaches to a natural gas source; professional installation by a licensed contractor required

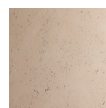

- Propane table attaches to a standard 20-lb. propane tank (not included); some assembly required; coordinating propane tank cover available in weathered slate or sand (sold separately); burns eco-friendly, non-toxic propane; for propane use only; cannot be converted to natural gas
- CSA-approved for safe, sustainable, clean-burning fuel by the Canadian Standards Association, the sole organization that provides electrical and gas standards for the US and Canada
- For outdoor use only
- Concrete may exhibit spotting and hairline cracks due to exposure to the elements; scratches may appear due to usage
- Includes basic weather-resistant PVC cover; prolong the life of your fire table with our Sur Last® custom-fit outdoor cover (sold separately)

CARE

Avoid letting water stand on the surface. Clean with a damp cloth. Wipe exterior surfaces with a mild dishwashing soap or baking soda, and rinse clean with water. Avoid abrasive soaps and cleansers. Wipe up spills quickly to avoid staining. When not in use, a custom-fit cover must be used to guard against moisture and the elements. This will protect the finish and prolong the life of the fire tables and columns.
