PERFORMANCE BOUCLÉ 100% POLYESTER

GREENGUARD® GOLD CERTIFIED

1. General Care & Cleaning Tips

- These fabrics adhere to the Association of Contract Textiles (ACT) cleaning code "W." This designation recommends spot cleaning only with water-based cleaners such as the RH Upholstery Fabric Cleaning cleaning kit.
- Vacuum every 1-2 weeks with a proper upholstery attachment to thoroughly remove air-borne dust and lint. Even though dust might not be visible, your sofa does collect dust.
- Use a lint roller to lift dry soil such as dust, dirt or light surface debris. This will also prepare the fabric for spot cleaning.
- Promptly treat spots and stains. See spot cleaning instructions below.

2. Spot Cleaning Method

Required Supplies

- Two white cloths (such as a dishcloth or dish towel)
- Approved cleaner
  - RH Upholstery Performance Fabric Cleaning Kit
    -or-
  - Simple soap-and-water solution (1/4 tsp mild, enzyme detergent, such as Tide®, Woolite® or Dawn® dishwashing liquid, mixed with 1 cup of lukewarm water in a clean spray bottle)

Spot Cleaning Steps

1. Before spot cleaning, blot up liquids on the surface with a clean white cloth. For thicker substances use a spoon to scoop up any excess.
2. Apply 3 sprays of approved cleaner (see above) to a clean white cloth and work from the outside of the stain inward using alternating clockwise and counterclockwise motions so as not to spread the stain.
3. Rinse thoroughly by applying 3 sprays of water on a new clean white cloth and blot to remove all soap residue. Repeat steps 2 and 3 as needed. **Because soap attracts dirt, it's essential to remove any cleaner residue to avoid future buildup. To ensure all residue is removed, consider at-home extraction (see below).**
4. Allow fabric to air dry.

3. Hot Water Extraction Method - Cleaning for Overall Refresh + Tougher Stains

- **Professional Extraction Cleaning Option**

  We recommend working with a local professional in your area for an overall cleaning of upholstery (especially if you have light colored fabrics). The same companies that clean rugs and carpets also clean upholstered furniture, for example Stanley Steamer. These companies have professional-grade hot water extraction machines that provide the best results.

- **At-Home Extraction Option**

  If you are using an at-home upholstery cleaner, we recommend using the portable Bissell Little Green® suction attachment without a brush and following the steps below:

  1. Before extraction cleaning, ensure all spots or spills have been cleaned by following the spot cleaning method above.
  2. Follow directions on filling your Bissell Green machine, filling only with water.
  3. Place the nozzle on the upholstery and slowly and evenly suction the entire surface to prevent water marks during drying.
  4. Allow fabric to air dry.

4. Machine Washing

- Wash in warm water on normal cycle with 100 grams (1 cup) of liquid Tide.
- Tumble dry using low heat for full cycle, approximately 70 minutes.

PERFORMANCE LUSTROUS CHENILLE 91% POLYESTER, 9% COTTON

General Care

- Vacuum regularly to remove dust, lint, and surface debris from the weave.

Spot Cleaning Method

- Blot spills immediately with a clean, dry cloth — avoid rubbing, which can push stains deeper into the fabric.
- For water-based and oil-based stains, mix a few drops of mild liquid soap with lukewarm distilled water.
- Dampen a clean cloth with the solution and gently blot the stained area.
- Rinse the area using another cloth dampened with plain distilled water, and blot dry.
- Let air dry completely, avoiding heat or direct sunlight while drying.

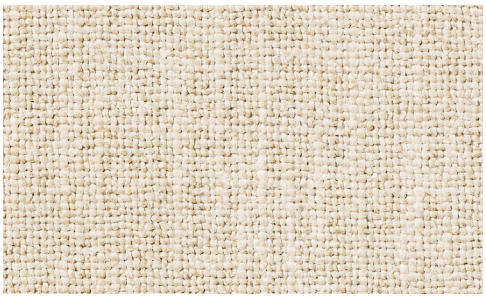

Professional Cleaning

- For large or set-in stains, or when the fabric is heavily soiled, hire a professional upholstery cleaner.

What to Avoid

- Do not bleach.
- Do not oversaturate the fabric — excessive moisture may distort the texture or leave water marks.
- Avoid abrasive brushes or tools that may snag the fabric.

PERFORMANCE WASHED LINEN 42% POLYESTER, 30% RECYCLED POLYESTER, 28% LINEN

General Care

- Vacuum regularly to remove dust, lint, and surface debris from the weave.

Spot Cleaning Method

- Blot spills immediately with a clean, dry cloth — avoid rubbing, which can push stains deeper into the fabric.
- For water-based and oil-based stains, mix a few drops of mild liquid soap with lukewarm distilled water.
- Dampen a clean cloth with the solution and gently blot the stained area.
- Rinse the area using another cloth dampened with plain distilled water, and blot dry.
- Let air dry completely, avoiding heat or direct sunlight while drying.

Professional Cleaning

- For large or set-in stains, or when the fabric is heavily soiled, hire a professional upholstery cleaner.

What to Avoid

- Do not bleach.
- Do not oversaturate the fabric — excessive moisture may distort the texture or leave water marks.
- Avoid abrasive brushes or tools that may snag the fabric.

PERFORMANCE MÉLANGE WEAVE 100% POLYESTER

General Care

- Vacuum regularly using an upholstery attachment to remove dust and debris.
- Use a lint roller to lift dry soil such as dust, dirt or light surface debris. This will also prepare the fabric for spot cleaning.
- Promptly treat spots and stains. See spot cleaning instructions below.

Spot Cleaning

- Blot spills immediately using a clean, dry, white cloth.
- Use a mild water-based upholstery cleaner (Upholstery Performance Fabric Cleaning Kit) or a solution of lukewarm water and a small amount of gentle soap (Tide®, Woolite® or Dawn® dishwashing liquid).
- Dampen a clean cloth with the solution and gently blot the stained area.
- Rinse the area using another cloth dampened with plain distilled water, and blot dry.
- Do not oversaturate the fabric — excessive moisture may distort the texture or leave water marks.
- Let air dry completely, avoiding heat while drying.

Professional Cleaning

- For large or set-in stains, or when the fabric is heavily soiled, hire a professional upholstery cleaner.

What to Avoid

- Do not bleach.
- Avoid abrasive brushes or tools that may snag the fabric's loops.

ITALIAN PERFORMANCE FINE BOUCLÉ 45% ACRYLIC, 35% WOOL, 20% POLYESTER

General Care

- Vacuum regularly to remove dust, lint, and surface debris from the weave.

Spot Cleaning Method

- Blot spills immediately with a clean, dry cloth — avoid rubbing, which can push stains deeper into the fabric.
- For water-based and oil-based stains, mix a few drops of mild liquid soap with lukewarm distilled water.
- Dampen a clean cloth with the solution and gently blot the stained area.
- Rinse the area using another cloth dampened with plain distilled water, and blot dry.
- Let air dry completely, avoiding heat or direct sunlight while drying.

Professional Cleaning

- For large or set-in stains, or when the fabric is heavily soiled, hire a professional upholstery cleaner.

What to Avoid

- Do not bleach.
- Do not oversaturate the fabric — excessive moisture may distort the texture or leave water marks.
- Avoid abrasive brushes or tools that may snag the fabric.

PERFORMANCE HEATHERED BOUCLÉ 60% POLYESTER, 29% WOOL, 11% LINEN

General Care

- Vacuum regularly using an upholstery attachment to remove dust and debris.
- Promptly treat spots and stains. See spot cleaning instructions below.

Spot Cleaning Method

- Blot spills immediately with a clean, dry, white cloth — do not rub.
- Use a mild water-based upholstery cleaner (Upholstery Performance Fabric Cleaning Kit) or a solution of lukewarm water and a small amount of gentle soap (Tide®, Woolite® or Dawn® dishwashing liquid).
- Lightly dampen a cloth with the solution and blot the stain gently. Follow by blotting with a clean, damp cloth to remove soap residue.
- Do not oversaturate the fabric — natural fibers like wool and linen are sensitive to excess moisture.
- Allow the fabric to air dry completely. Do not use heat to speed up drying.

Professional Cleaning

- For overall soiling or persistent stains, professional upholstery cleaning is recommended, preferably by cleaners experienced with wool and natural fiber blends.

What to Avoid

- Do not bleach.
- Do not steam.

ITALIAN PERFORMANCE LUSTROUS VELVET 100% POLYESTER PILE

General Care

- Vacuum regularly using an upholstery attachment to remove dust and debris.
- Gently brush the nap with a velvet brush or soft clothes brush to keep the fabric looking plush and even.
- Promptly treat spots and stains. See spot cleaning instructions below.

Spot Cleaning

- Blot spills immediately using a clean, dry, white cloth — do not rub.
- Use a mild water-based upholstery cleaner (Upholstery Performance Fabric Cleaning Kit) or a solution of lukewarm water and a small amount of gentle soap (Tide®, Woolite® or Dawn® dishwashing liquid)
- Lightly dampen a clean cloth with the solution and gently blot the affected area, working from the outside in.
- Follow with a cloth dampened with distilled water to remove soap residue.
- Blot excess moisture and allow the fabric to air dry fully — then gently brush the nap to restore its texture.

Professional Cleaning

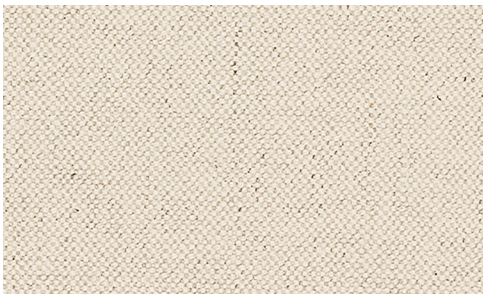

- For overall soiling or tough stains, professional upholstery cleaning is recommended — especially by cleaners experienced with velvet.

What to Avoid

- Do not bleach.
- Avoid excess water, which can crush or flatten the velvet pile.
- Do not steam or iron directly on the fabric.
- Avoid rough scrubbing, as it can damage the velvet's texture.

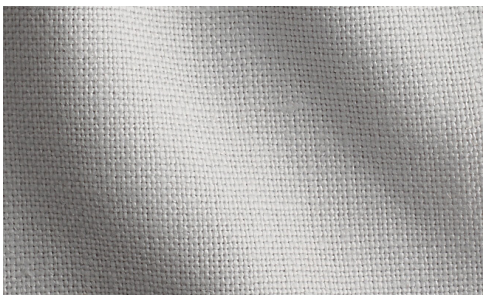

FABRIC CARE INSTRUCTIONS

CLASSIC BELGIAN LINEN 100% BELGIAN LINEN

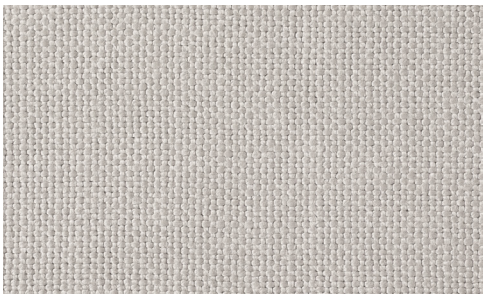

- Dab spills quickly with a soft cloth.
- Vacuum with upholstery attachment to remove dust and dirt.
- Spot clean with distilled water and mild soap; rinse and blot thoroughly to remove soap residue. If spot persists, repeat the process.
- Professional cleaning recommended.

BELGIAN LINEN 100% BELGIAN LINEN; ALTA™ STAIN-REPELLENT FINISH

- **Basic Care.** Spills will bead on fabrics with an Alta stain-repellent finish. Blot spills gently with a clean, dry, absorbent cloth. Allow the cloth to absorb the liquid.
- **Stubborn stains**. Dampen cloth with warm water and blot the spill gently. Do not rub. Frequently change and dampen the cloth surface with warm water and repeat blotting. Air dry.
- **Stubborn stains such as olive oil and ketchup, or stains that have dried on the fabric.** Dampen a cloth with warm water and place a drop of mild dish soap onto the cloth. Blot the stain and rotate the cloth surface to absorb the stain. Use a clean, damp cloth to blot and remove dish soap residue. Air dry.
- **Red wine and whiskey.** Dampen a cloth with warm water and place a drop of mild laundry detergent. Blot the stain and rotate the cloth surface to absorb the stain. Use a clean, damp cloth to blot and remove laundry detergent residue. Air dry.
- Avoid the use of bleach or harsh chemicals. Do not dry clean or steam iron.

BELGIAN LINEN BASKET WEAVE 100% BELGIAN FLAX LINEN

- **Basic Care.** Spills will bead on fabrics with an Alta stain-repellent finish. Blot spills gently with a clean, dry, absorbent cloth. Allow the cloth to absorb the liquid.
- **Stubborn stains.** Dampen cloth with warm water and blot the spill gently. Do not rub. Frequently change and dampen the cloth surface with warm water and repeat blotting. Air dry.
- **Stubborn stains such as olive oil and ketchup, or stains that have dried on the fabric.** Dampen a cloth with warm water and place a drop of mild dish soap onto the cloth. Blot the stain and rotate the cloth surface to absorb the stain. Use a clean, damp cloth to blot and remove dish soap residue. Air dry.
- **Red wine and whiskey**. Dampen a cloth with warm water and place a drop of mild laundry detergent. Blot the stain and rotate the cloth surface to absorb the stain. Use a clean, damp cloth to blot and remove laundry detergent residue. Air dry.
- Avoid the use of bleach or harsh chemicals. Do not dry clean or steam iron.

FABRIC CARE INSTRUCTIONS

CLASSIC BELGIAN LINEN BASKETWEAVE 100% LINEN

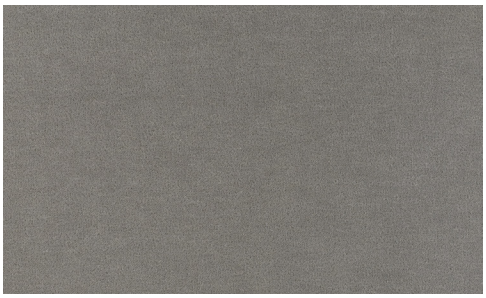

- Dab spills quickly with a soft cloth.
- Vacuum with upholstery attachment to remove dust and dirt.
- Spot clean with distilled water and mild soap; rinse and blot thoroughly to remove soap residue. If spot persists, repeat the process.
- Professional cleaning recommended.

LAUNDERED BELGIAN LINEN 52% BELGIAN LINEN, 38% VISCOSE, 10% POLYESTER

- Fully washable up to 100˚F/40˚C.
- May be dry cleaned.
- For spot cleaning, use a mild detergent and blot the stain with a dry, clean paper towel or cloth. Wet as needed and do not rub. Ironing may be needed to reactivate stain repellency.
- Do not use bleach.

ITALIAN MERINO WOOL VELVET 100% MERINO WOOL PILE

- Dab spills quickly with a soft cloth.
- Treat stains as follows:
  - For dry stains, use alcohol, then dry clean.
  - For oily stains, use AVIO solvent, then dry clean.
  - For water-based stains, use soap and hot water, then dry clean.
- Vacuum with upholstery attachment to remove dust and dirt.
- Professional cleaning is recommended.

HOLLAND & SHERRY WOOL TWILL 100% WOOL

- Dry clean only.
- Do not use bleach, water or steam.
- Dab spills quickly with a soft cloth.

FABRIC CARE INSTRUCTIONS

HOLLAND & SHERRY WOOL BOUCLÉ 100% WOOL

- Dry clean only.
- Do not use bleach, water or steam.
- Dab spills quickly with a soft cloth.

ITALIAN BOUCLÉ 29% ACRYLIC, 25% VIRGIN WOOL, 13% POLYESTER, 12% COTTON, 11% VISCOSE, 10% LINEN

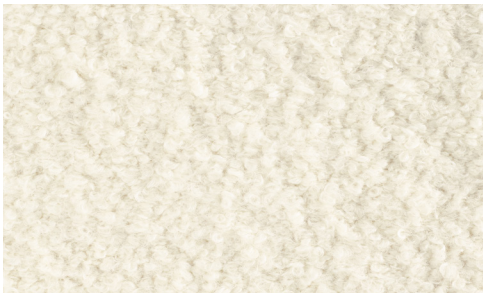

- Dry clean only.
- Do not use bleach, water or steam.
- Spot clean only with a water-free dry-cleaning solvent.

ITALIAN TEXTURED BOUCLÉ 33% ACRYLIC, 32% VISCOSE, 16% WOOL, 8% POLYESTER, 7% COTTON, 4% LINEN

- Professional dry cleaning recommended.
- Do not use bleach or steam.
- Vacuum with upholstery attachment to remove dust and dirt.
- For liquid spills, blot gently with a clean, dry, white, absorbent cloth. Do not rub the liquid in.
- For stubborn stains or stains that have dried on the fabric, dampen a cloth with warm water and place a drop of mild dish soap onto the cloth. Blot the stain and rotate the cloth surface to absorb the stain. Use a clean, damp cloth to blot and remove dish soap residue. Air dry.
- If stains persist, use a solvent-based cleaner.

ITALIAN CHUNKY TEXTURED BOUCLÉ 26% COTTON, 25% WOOL, 25% ACRYLIC, 24% ALPACA

- Professional dry cleaning recommended.
- Do not use bleach or steam.
- Vacuum with upholstery attachment to remove dust and dirt.
- For liquid spills, blot gently with a clean, dry, white, absorbent cloth. Do not rub the liquid in.
- For stubborn stains or stains that have dried on the fabric, dampen a cloth with warm water and place a drop of mild dish soap onto the cloth. Blot the stain and rotate the cloth surface to absorb the stain. Use a clean, damp cloth to blot and remove dish soap residue. Air dry.
- If stains persist, use a solvent-based cleaner.
