

LARS MODULAR COLLECTION INSTRUCTIONS

Thank you for choosing this quality product. Be sure to check all packaging materials carefully for small parts that may have become loose during shipment, and place all parts on a non-abrasive surface.

⚠ WARNING:

These sofas can be cumbersome and heavy; the assistance of two or more people is recommended in order to prevent personal injury and ensure the sofa parts are not damaged during the assembly process.

To ensure that the frame of your sofa remains intact over time, please note the following recommendations:

- Avoid jumping on the sofa.
- Do not sit on the arms and/or the back.
- Do not drag the sofa over rough surfaces (carpets, wall-to-wall carpeting, etc.).
- Do not pull the sofa by the arm to avoid breaking the stitching.
- Do not move the sofa by lifting by the armrests; always move the sofa by lifting it from the base.

Read the instructions detailed in the attached document and verify that all components are present before mounting the feet. Avoid removing the sofa's packing using pointed or sharp objects, which may damage the covering. Spread the wrapping materials on the floor, lower the sofa so that the back rests against the floor and proceed as follows:

Assembly Instructions

1. Gently set the back of the sofa on a plain and nonabrasive surface.

NOTE:

Underneath the sofa there are holes with pre-installed nuts which correspond to the holes of the legs for the bolts to pass through.

2. Based on the CODE ASSEMBLY sketch on page 4 of 5, use the code assembly color (RED or BLUE) to set and align the holes of the legs with the holes underneath the sofa. Once the leg is set, secure it with the countersunk Allen head bolt and tighten with the Allen wrench provided. Please see the INSTALLATION INSTRUCTIONS sketch on page 4 of 5.

NOTE:

- Repeat procedure with the other legs.
- Tighten all the bolts to fit snugly.
- Follow the same procedure with each section.

3. When connecting multiple sections, start by setting the left section at your desired location, then follow with the remaining sections, noting the following:
 - Make sure the cleats of the remaining sections are set properly on the wooden connectors as shown in the LEG CONFIGURATION sketches on page 4 of 5.
 - Make sure the sections are aligned when connecting multiple sections as shown in the CONNECTING INSTRUCTIONS on page 4.
4. After assembly, set the seat cushion and back cushions on top.

LARS MODULAR CONTENTS

MODULAR LEFT-ARM / RIGHT-ARM

CORNER CHAIR

COMPONENTS

- [4] Single Legs
- [2] Connecting Legs
- [1] Seat Frame
- [1] Seat Cushion
- [1] L-shaped Back Cushion

HARDWARE

- [8] Allen Head Bolts
- [1] Allen Wrench

MODULAR LEFT-ARM / RIGHT-ARM CHAIR

COMPONENTS

- [4] Single Legs
- [1] Connecting Leg
- [1] Seat Frame
- [1] Seat Cushion
- [2] Back Cushions

HARDWARE

- [6] Allen Head Bolts
- [1] Allen Wrench

MODULAR LEFT-ARM / RIGHT-ARM CHAISE

COMPONENTS

- [4] Single Legs
- [1] Connecting Leg
- [1] Seat Frame
- [1] Seat Cushion
- [2] Back Cushion

CARE INSTRUCTIONS

Upholstery

Rotate cushions and pillows weekly to distribute wear. Vacuum upholstery weekly using the upholstery attachment and crevice tool of your vacuum to remove loose particles.

Periodic cleaning by a professional upholstery cleaning service is the only recommended cleaning method for your upholstery, including furniture base beneath slipcovers. Annual cleaning is suggested, but this may vary depending on use.

To prevent possible “bleeding” of ink onto fabric, do not leave newspapers or other printed materials lying on upholstery.

Take special care when spraying household chemicals and commercial products near upholstery.

Avoid placing your furniture in direct sunlight. All fabric and leather will fade over time.

Applying noncommercial scented fabric fresheners, neutralizers and fabric protectors is never recommended.

Spills and Spot Cleaning

In some cases, spot cleaning can cause a ring or fading. It is best to have the entire piece or cushion casing cleaned by a professional upholstery cleaning service to ensure uniform results. If you decide to spot clean on your own, check the standard cleaning code to determine the correct type of product to use.

Always blot—never rub—spills immediately with a clean, absorbent white cloth. Blot from the outside to the middle of the affected area to prevent rings.

Pile fabrics may require brushing with a nonmetallic, stiff bristle brush to restore appearance.

Slipcovers

Brush or vacuum at least once a month. Rotate cushions and pillows regularly. Protect from direct sunlight, which may cause fabric to fade unevenly.

Immediately blot spills with a clean white cloth. Seat and back cushions should be reversed and/or rotated regularly.

Dry-Clean-Only Slipcovers

Use a reputable dry cleaner or professional upholstery cleaner. Always dry clean the entire slipcover for uniform results. Close all zippers and fabric tab fasteners prior to cleaning. As with clothing, some fading is to be expected.

Machine-Washable Slipcovers

Use a triple-load washer or divide slipcovers into manageable loads. Always wash the entire slipcover for uniform results. Close all zippers and fabric tab fasteners prior to washing.

Wash in cold water with mild detergent.

Tumble dry on low until slightly damp; remove promptly to reduce wrinkling.

Do not line-dry slipcovers as this may stretch the fabric.

As with clothing, some fading is to be expected.

Leather

Clean periodically with a dry cloth to remove residual dust and prevent dirt buildup. Leather furniture should be protected from exposure to sunlight and heat, which may cause the leather to fade or lose its soft, supple feel.

Spots, Spills and Stains

Most liquids will initially be repelled by the leather but if left standing over an extended period of time, will be absorbed.

Blot liquid immediately with a clean, absorbent cloth.

Butter, oil or grease spills should be wiped with a clean, dry cloth.

Spots should dissipate into the leather in a short period of time.

For stubborn stains and spills, use a cloth lightly dampened with warm water to blot the stain and remove it. If this does not work, mix mild soap with water, then blot to release the stain and blot again with a dry cloth (avoid scrubbing).

Do not use harsh cleaners or solvents. For additional leather care, please contact a leather cleaning professional.
