CARE INSTRUCTIONS

- Keep the marble top free of dust and dirt to minimize scratches and wear patterns that can result from everyday use.
- Clean the marble on a regular basis with warm water and a clean, non-abrasive cloth or sponge. Using a neutral cleaner specifically formulated for natural stone will help remove soil that normal dusting or damp sponging may leave behind.
- Do not use general-purpose cleaner or you may damage the marble or the sealer. Do not use products that contain lemon, vinegar or other acids, as these may etch the marble surface or damage the polish. Do not use scouring powders or creams; these products contain abrasives that may scratch the surface. Products that contain bleach should not be used to clean your marble surfaces.
