

RESTORATION HARDWARE

Davenport Sconce

PARTS ENCLOSED

- (A) Glass (2)
- (B) Allen key (1)
- (C) Allen screw (1)
- (D) Mounting Plate (1)
- (E) Mounting Screw (2)
- (F) Setscrew (3)
- (G) Ground screw (1)
- (H) Gasket seal (2)

IMPORTANT SAFETY INSTRUCTIONS

WE RECOMMEND INSTALLATION BY A LICENSED ELECTRICIAN.

This fixture has been rated for up to one (1) 60-watt maximum Type A bulb (not included).

To avoid the risk of fire, do not exceed the recommended wattage.

WARNINGS

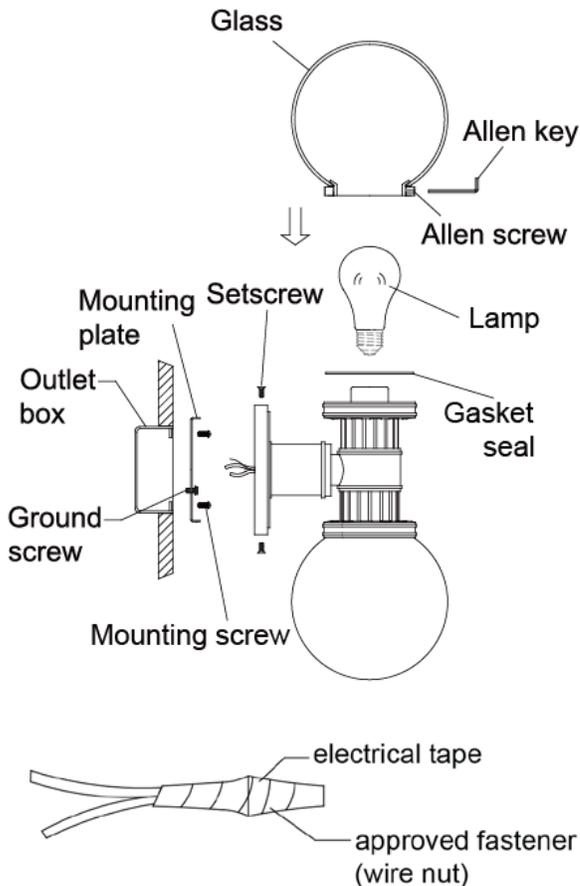

1. All wires are connected.
2. This fixture is designed to be mounted on an octagon box. The box must be securely mounted to the structure of the building.
3. Do not connect electricity until your lamp is fully assembled.
4. To reduce the risk of fire, electrical shock, or personal injury, always turn off and unplug lamp and allow it to cool prior to replacing light bulb.
5. Do not touch bulb when fixture is turned on or look directly at lit bulb.
6. Keep flammable materials away from lit bulb.
7. **TURN OFF THE ENTIRE ELECTRICAL CIRCUIT TO WHICH THE LIGHTING FIXTURE IS TO BE ATTACHED.** Turn circuit breaker to "off" position or completely remove the fuse controlling the circuit.
8. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the fixture was attached. **DO NOT SEPARATE MULTIPLE TWISTED WIRES THAT MAY BE IN THE BOX. DO NOT DAMAGE THE INSULATION OF OLDER WIRING.** In regular circumstances the BLACK wire will be the "Hot" lead and the WHITE wire will be the "Neutral" or "Common" lead. A GREEN or BARE COPPER wire is the "Ground". In older buildings it is always good practice to reconfirm the polarity of the wiring.

TOOLS NEEDED

Blade screwdriver, phillips screwdriver, slip joint pliers or small adjustable wrench, wire cutter/stripper, electrical current tester, stepladder and electrical tape. NOTE: The important safeguards and instructions outlined on this sheet are not meant to over all possible conditions and situations that may occur. It must be understood that common sense, caution and care are factors that cannot be built into any product. Caution and care must be supplied by the person(s) installing, operating and maintaining this lighting fixture.

TO ASSEMBLE

1. **SHUT OFF THE MAIN ELECTRICAL SUPPLY FROM THE MAIN FUSE BOX/CIRCUIT BREAKER!**
2. Carefully remove all parts from the box and remove all plastic covering.
3. Attach the mounting plate to the outlet box (The green screw should face out). Pull wires out of box.
4. Fasten the bare ground wire to the green or bare copper wire in the outlet box of the green screw on the mounting plate.
**NEVER FASTEN THE GROUND WIRE TO THE BLACK OR "HOT" WIRE!
FAILURE TO FOLLOW THIS INSTRUCTION COULD RESULT IN SERIOUS INJURY OR DEATH!**
5. Fasten the fixture lead with the ridge(s) to the white wire in the outlet box. Fasten the wires together with an approved fastener (wire nut) starting about 1" below the fastener, tightly wrap the connection with electrical tape so that the tape seals the end of the fastener. **Make sure that there is no exposed wire or strands that could cause a dangerous short circuit!**
6. Connect the black fixture wires to the black wire in the outlet box. Fasten the joined wires as in step 5.
7. Place the back plate over the outlet box and fasten it by screws.
8. Place the gasket seal to the socket.
9. Install the lamp(s). The fixture is rated for 60 watt type A lamp(s).
DO NOT EXCEED RECOMMENDED WATTAGE!
10. Attach the glass to the fixture and screw the glass into the fixture. (If the ring on the glass becomes loose, please use allen key to tighten allen screw).
11. Restore power to circuit at breaker or fuse box.

CARE INSTRUCTIONS

Wipe all surfaces with a soft dry cloth. Clean glass with a mild soap and water mixture. Do not use any harsh cleaners (including ammonia-based products) or abrasives, as they will damage the finish.

NOTE

The important safeguards and instructions outlined on this sheet are not meant to cover all possible conditions and situations that may occur. It must be understood that common sense, caution and care are factors that cannot be built into any product. Caution and care must be supplied by the person(s) installing, operating and maintaining this fixture.
