FEATURES

Inspired by the treillage latticework of the Louis XVI period, popular in gardens and garden-inspired rooms, our neoclassical bedroom collection features inlaid bands of diagonal laser-cut metalwork. Each hand-built piece is set on turned "toupie" legs and fitted with rosette handles. Hand-crafted from solid pine, our bed is richly upholstered in sand Belgian linen.

- Built from distressed solid pine, inlaid by hand with metal
- In espresso pine with blackened metal lattice and hardware or weathered pine with oxidized metal lattice and hardware
- Latticework extends across face and sides of Nightstands, Dressers and Armoire, and foot and sides of Beds

- Bed features mortise-and-tenon joinery
- Metal support system in Bed; requires a standard mattress and box spring
- Lathe-turned legs
- Variations in the wood and metal work are to be expected and celebrated. Each item is unique, and no two are exactly alike; cracks, nicks and imperfections will be present.
- These pieces are crafted with unsealed metal that may rust over time, enhancing their rustic one-of-a-kind character. Note that the rust may rub off if it comes in contact with other furniture or fabrics.

CARE

Wipe with a soft, dry cloth.

Weathered Pine
