FEATURES

In the south of France at the turn of the last century, metal lockers like these secured important bank ledgers and forms. Our reproduction captures the handsome paneled doors, molded cornices and impressive storage capacity of the originals, including the rich patina of age and wear. Quatrefoil grilles offer glimpses of contents stowed on their upper shelves, while solid panels provide hidden storage below.

- Crafted of iron
- Antiqued finish
- 4 adjustable shelves behind each latching door

- Upper door panels are perforated in a quatrefoil pattern
- Lower door panels are solid
- This item is artisan crafted with meticulous care. Given its handmade and hand-finished nature, variations in the metal work are to be expected and celebrated. No two items are exactly alike.
