FEATURES

We've repurposed the design of a rolling baker's rack from the early 20th century, a time when commercial bakeries let their products rise, rest and cool on movable racks exactly like this. Its C-shaped frame was designed to help keep contents in place.

- Metal grid construction framed by sturdy steel tubing with an antiqued, natural-metal finish

- Metal finish may oxidize over time
- Fixed shelves built of solid wood with a Dry Oak finish
- Sits on 4 casters

CARE

Wipe with a soft, dry cloth.
