### FEATURES

With a refined profile inspired by mid-century design, our flared fire dish and flared fire bowl offer a warm and cozy spot for gathering. Our lava rock fire bowl brings warmth and ambience to an outdoor space.

#### FLARED FIRE BOWL AND DISH

- Designed and individually handcrafted in Canada of smooth, high-performance concrete
- Charcoal and walnut colors permeate the cast concrete; will patina and age naturally
- Topped with lava rock
- Adjustable flame control
- Stainless steel burners
- Manually lit pilot with safety thermocouple - no power required
- UV, weather and freeze/thaw-resistant
- Coordinating propane tank cover available (sold separately)
- Available in propane and natural gas fuel options. Note: propane fire bowls and dishes cannot be converted to natural gas
- Professional installation by a licensed contractor required; assembly provided
- Outdoor use only

#### LAVA ROCK FIRE BOWL

- Made from heat-resistant fiberglass and steel
- Topped with decorative lava rocks
- Hand-painted grey finish
- Adjustable flame control
- Features battery-operated ignition (AAA battery included)
- 8' connector hose included
- Some assembly required
- Coordinating propane tank cover available (sold separately)
- Available in propane and natural gas fuel options. Note: propane fire bowls cannot be converted to natural gas
- Outdoor use only

#### CARE

Avoid letting water stand on the surface. Clean with a damp cloth. Wipe exterior surfaces with a mild dishwashing soap or baking soda, and rinse clean with water. Avoid abrasive soaps and cleansers. Wipe up spills quickly to avoid staining. When not in use, a custom-fit cover must be used to guard against moisture and the elements. This will protect the finish and prolong the life of the fire bowls and dishes.
