

RESTORATION HARDWARE

METAL CARE

Aluminum: Artisans meticulously handcraft our metal furniture from rustproof aluminum with precision welds and reinforced stress points. They then apply the finishing touches by hand: fine grinding to ensure smooth joints and a triple application of a weather-resistant and UV-inhibiting coating that's 10 times more durable than paint. The result is furniture that's virtually maintenance-free.

Brass: The natural brass finish will develop a graceful dark matte patina over the course of 12 months if left uncovered. The frame can be restored to its original luster by polishing.

CARE

Use a dry, clean cloth to dust your furniture weekly and help maintain its luster. To clean furniture, spray off any dirt or debris with a hose and wipe dry. Avoid letting water stand on the surface of your furniture and cushions; protect them with our custom-fit furniture covers when not in use.

Cushions

Sunbrella cushion covers are machine washable or may be spot cleaned with mild soap and water. For stain removal use a diluted solution of 1 part chlorine bleach, ¼ cup mild soap and 1 gallon water. Allow fabric to air dry.

Perennials cushion covers may be spot cleaned with mild, natural soap and thoroughly rinsed with lukewarm water. For stain removal, use a diluted solution of 1 part chlorine bleach to 2 parts water. Allow fabric to air dry. Professional cleaning is recommended for tough, persistent stains.

Flip cushions on their sides when wet to help drainage. To protect furniture and cushions year-round, use our custom-fit covers when furniture is not in use.
