 Unlimited Furniture Delivery at a low flat rate based on delivery area. See a store associate or our website for details.

Jars are delivered in 1-2 weeks in most US metropolitan areas. See our website for pricing, Canada and additional views.

FEATURES

Inspired by the vessels used in the Mediterranean for transporting grain, wine and olives for centuries, our handsome garden jars are artisan-crafted and imbued with a weathered finish that evokes ancient stone.

- Handcrafted of fiber concrete, with an aged finish unique to each jar
- Fiber concrete reproduces the look of terra cotta but is lighter weight
- Available in 2 finishes

- Include drainage hole and rubber plug
- Suitable for indoor or outdoor use
- Due to hand-applied finish, no two are exactly alike

CARE

Protect jars in cold temperatures.

Terra Cotta
