### CARE

#### French Oak

French Oak will naturally lighten in color with sun exposure and can be maintained with a periodic cleaning using a warm water and mild dishwashing soap solution. Gently scrub the wood with a soft-bristle brush in the direction of the grain. Rinse thoroughly with water and allow to dry completely before use. Always wipe wood furniture dry after cleaning with water, or anytime it gets wet. To keep furniture clean and prolong its life, protect pieces with our custom-fit covers when not in use. Allow furniture to completely air dry before covering.
